Fig. 13

A cross-sectional view of a golf club head. The head features a main body with a cavity (38) and a soleplate (37). A vertical neck (43) is attached to the back of the head. The soleplate (37) is shown with a series of vertical ribs (46) and a central section (48). A small component (39) is visible on the right side of the soleplate, and a feature (41) is indicated near the heel. The neck (43) is shown with a multi-layered structure.
